Illumination for Knobs Code 8911317400

Tolerances unless otherwise stated: ± 0.2

Scale: 1:2

This product is an example of our design and production possibilities in the field of illumination with L.E.D.

Custom designed for an electric oven manufacturer, the initial most important requirements were:

- 1) Low investments in tooling
- 2) Thin luminous red ring around the existing knobs which permitted the use of them without modifications
- 3) Nice red light
- 4) Good electric and fire resistance.
