## Double Indicator Light Custom Made Type 015

Tolerances unless otherwise stated:  $\pm 0.2$

Scale: 1:1

This product is an example of our design and production possibilities in the field of indicating devices. Custom designed for a manufacturer of electric cookers, the initial most important requirements were:

- 1) Low investments in tooling
- 2) Small size
- 3) Up to two indicators
- 4) To work at 120°C ambient temperature
- 5) Backlighting of panels and diffusers

After to our different proposals, the client ordered us the present product, which meets all requirements. We carried out all the steps to bring the product in production, including the manufacture of tooling.
